The Crisis24 Difference

The Highest Standards of Care

- A full-featured and ready to deploy security and medical assistance program
- The largest integrated security and medical assistance team in the industry
- A heritage of over 55 years delivering high quality medical assistance worldwide
- Access to 24/7 medical advice and assistance through our best in class operations centers strategically located in Annapolis (US), London (UK), Sydney (AUS), Cape Town (SA).
- Client-led service delivery
- Proactive case management and patient-centered approach
- Immediate support directly to your employees, wherever they are
- Direct billing agreements with insurers for a seamless financial process

Unrivaled Network of Medical and Logistical Providers Complementing our Security Network

Our extensive network of 1.2 million medical and logistical providers is continually evolving to meet the latest changes of the global health care systems and your evolving needs.

Innovative Technology

All operations are integrated through a state of the art case management tool, underpinned by medical and operations teams working together to manage access to quality medical care wherever you are located. Routine medical advice, assistance, or emergency calls are triaged directly by a team of 90 assistance staff.
