

# We live in a *volatile* world.

Moving swiftly from planning to response is key.

At **Crisis24**, our Actionable Risk Management approach helps you turn risk into global opportunity.

We are the leader in global integrated risk management

We are the only true end-to-end security experts in the market. **Crisis24** is your one-stop shop for integrated risk management, powered by always-on intelligence and technology. We combine extensive worldwide expertise with large-scale on-the-ground capacity to provide rapid and actionable risk management.

## Our customizable expertise

### People Risk

- +11.3K Journey management round trips & daily services
- +500M Days of protection to corporations & residences
- 27M People protected

We offer a broad range of risk management services aimed at keeping people safe, from individuals requiring highly customized protection to an entire workforce or higher education community. Powered by state-of-the-art proprietary technology, we provide global and hyperlocal intelligence, monitoring, communication, response, and assistance services that keep people protected and connected 24/7, anywhere in the world.

### Organizational Risk

- 14.5K Alerts/Year
- 15K Incident reports/Year
- 48K Assets monitored

We provide in-depth intelligence, planning and training, as well as swift and actionable responses, to keep you ahead of emerging risks. We have the necessary team and technology in place to prepare your business continuity plans for any adverse event. Our services and strategic resilience planning help you remain competitive, agile and adaptive.

### Asset Risk

- 50% of Fortune 500 companies protected
- 11M Intel alerts sent to clients
- 48K Assets monitored

No matter where in the world your sites and assets are located, Crisis24 is on hand to provide round-the-clock real-time protection. Powered by leading proprietary technology for always-on site monitoring and backed by global and hyperlocal intelligence, we have the right team to address all issues and to help you prevent loss of assets and mitigate the impact of adverse events.

### Cyber Risk

- 3.9M USD Average cost of a data breach
- +15B Stolen credentials on dark web from 100K breaches
- 300% Increase in the last 2 years of stolen credentials on dark web
- +18M Websites infected with malware weekly

We are specifically trained to manage risk to digital systems and data, safeguarding against theft, damage, disruption and all other cyber attacks. From pre-incident consulting to post-incident response, we help you protect your most valuable information assets.

## Our Actionable Risk Management

Our Actionable Risk Management is backed by 30 years of in-the-field know-how, giving our experts the necessary and essential mix of intelligence, precision and swift response to provide tangible results on a global scale.
